COMMENTATOR.:- Hullo everybody ! This is the Universal Talking News reporter screen-casting the latest news.

(1). TITLE.:- CARRIER TRICYCLE CHAMPIONSHIP.

Picture.:- Their job in life is delivering orders, but when you see them moving as fast as this you might know, without being told, that they're hurrying for some reason other than prompt delivery of goods ! It's the annual championship race round Paris, and they're striving to deprive Cognasson, last year's winner, of his title.

It's no "cake walk" - the race is over a course of 25 miles, and the last ones seem like leagues !

After pushing one of these things for a score of miles it feels as though it weighs --

--a ton ! Wouldn't their governors love to see them now ? Towards the finish of the race, --

--some of the riders are so exhausted as to be almost incapable of managing their trikes.

The finish, and a close one too ! Come on lads ! Keep it up ! By jove ! he only wins by a head -- lamp !

It's Cognasson again -- he's in the middle. That's the fourth time he's won this race. Well pedalled, lad !
