

(4) TITLE.:- HOUSEWIVES IN EMBRYO.

Picture. :- They believe in teaching 'em young in Berlin.
From four to fourteen --

--is young enough, in all conscience. They simply love to
learn how --

--mother makes it ! Even the boys enjoy this new class.

You're not grating that correctly, missie, try it this
way !

They soon become adepts at their particular jobs, --

--and look forward to the day when they'll be --

--able to tell Mother how it should be done. That'll
be a great time for some of them.

Twice a week these kiddies have these lessons at their
Berlin school --

--and cookery days are eagerly looked --ah ! you naughty
girl ! Nice ?

They attend to their own baking, too; and their efforts
are very successful considering the age of the little cooks.
It's ass well --

--because they have to make their midday meal off the
foods they have prepared. I'm not sure this isn't a little
hard on them.
