TITLE.:- MANCHESTER'S AMBULANCE.

Picture.:- Hullo, there's trouble ! With "Bobby" early on the scene ! It's a demonstration of Manchester's new ambulance, with victims numbering three. The policeman takes charge !

"Call the ambulance", he orders, and --

--quickly the fine new vehicle sets out on its errand of mercy. It --

--is fitted to deal with three stretcher cases, instead of the usual two, only.

Out come the stretchers. There are no straps to waste time. The "victims" --

--are quickly and carefully lifted and laid upon the stretchers, which are --

--placed in the ambulance ready for rapid transit to the hospital. A push, and the stretcher with its burden is raised to make room for another --

--below it. It looks as though it will, almost, be a pleasure to take a --

--ride in one of these ambulances. Lets hope you never have to !
