(5). TITLE:- CARNERA.

Picture:- As a rest from having fellows bumping themselves on ---

--his fists, the giant Italian boxer spends a day on the moors. He has developed an enthusiasm for shooting--you'd have thought the other way was quite effective enough for Primo Carnera. But, no ! --

--he wants a brace or two of pheasants of his own shooting !

Aha ! who shot this one ? Anyhow, Primo's collared it ! and I doubt if anyone's got the pluck to dispute his ownership ! How do you do, Mr. Carnera ? May your words, and deeds, always carry weight !
