

(8).

TITLE.:-MISS ENGLAND II.

Picture.:- She looks pretty good..... Particularly when one has in mind the tragic disaster --

--which cost Sir Henry Segrave his life, on Windemere, last year.... And now, Kaye Don is to attack the record in --

--her !.... The little propellor is capable of no less than 12,000 revolutions a --

--minute ! ...Two hundred a second ! It's almost incredible !.. Miss England will undergo trials near Belfast, and --

--then, ho ! for Buenos Aires, and the record ! ...Everybody seems to be pretty confident she'll do it, too !,

--including Mr. Willcocks, the mechanic, who was saved from the Windemere wreck.....

We hope you're right, Mr. Willcocks, and that Miss England will be --

--successful. She looks capable of it.... And she's got a jolly good name, too !
