

2-221721

(7). TITLE.:- INTER VARSITY HILL CLIMB.

Picture.:- All sorts and conditions of motor vehicles are entered for this "land-battle" of the blues, --

--and rivalry is almost as keen as in the great annual water contest on the Thames.

X The two little tripods set each side of the road, are timing the starts --

--by means of an invisible ray. ... As the vehicles cut the ray their --

--start is registered to the fraction of a second. ... Thus, modern science aids modern sport. ...

Part of the climb is through a real --

--hearty blizzard, giving the drivers something to think about. ...

X The climb is a one-^{ten}-in-two gradient, --

--but they make some jolly good times.

Here's some more of that blizzard. ... The "wind-yp" --

--with a vengeance ! Making it very difficult for the "invisible --

--ray" man at the finish. ... The snow kept breaking --

--the rays, interfering with the checking of times.

Look at this ! ... Let's hope it's winter bidding us Good-bye !
