TITLE.:- M.C. ROUGH RIDERS.

Picture.:- No, dear people, it's not a running race ! ... They're dashing for their motor-bikes. ... First there, is first away, unless you happen to "slip up". ... They are facing a mile-and-a-half of real rough going. .. It's been designed to shake 'em up - and here's how it does it !

Before it shakes 'em up, it takes 'em down. This mere one-in-two drop doesn't worry them a bit !

And now they speed up with good reason. That hill's a bit of a teaser ! ...

There they go, U-UP, and there's another bump at the top !

It's called a steeplechase; here's the --

--reason ! ... Bump ! bump ! bump ! bump ! bump !

Good for the liver this - maybe too good !

Here's some more "Jack in-a-box" stuff ! Whoop ! Whoop !

These chaps should make good sailors, or --

--lift boys. ... They stand the up-and-down business alright.. Our jolly --

--old sergeant-major used to say "Jump to it !", but never did--

--the boys do it like these ! ...

Switchbacks at the old fun-fairs wouldn't mean anything to these fellows. They can get nearly all the fun they want out of their motor bikes. ... Then, when they've finished steeplechasing - well, there are pillions and pillions of girls !
