

(3). TITLE:- FIRST WITH THE NEWS.

Picture:- All through the year they try to beat each other --

--by being first in delivering their newspapers.

And then, once a year, they meet --

--to race for the championship of Berlin newsboys.

Each one carries a haversack, weighted to represent his daily load of newspapers.

There are not so many of them in these days, --

--for motor-cars are slowly, but surely, pushing them out--

--of their jobs. The course is a --

--long one, so only near the end --

--do they really ginger up the pace.

You'd think some of them were trying to qualify for better jobs, as well as --

--for the honour of being first in this race. They're approaching the winning post, --

--and here's Max Gols, first in with the news.

I wish he delivered mine in the mornings !
