

(5).

TITLE.:- GARAGE PROBLEM.

Picture.:- Here's an idea for you harassed car-owners !
Half a dozen can now --

--"get together" and garage their six cars in the ground
space hitherto wanted --

--for one car only. When you want to put your "bus"
away - here's how you do it ! She's driven on to
the "big-wheel"-like platform, and in a few seconds is safely
housed, --

--and the multi-garage is ready for the next one.

It's a wonderful contraption for economy of space,
although I expect the Chancellor of the Exchequer's --

--land-valuers would assess a big rise in the value of the
few feet on which it stands !
