

(10).

TITLE:- AIR THRILLS.

Picture:- One of the big thrills of the Air Pageant. ....

Standing on the wing tips, clutching the --

--struts, away they go, prepared to "take a drop" which would send cold shivers down the back of most ordinary individuals.

Personally, I would prefer a "drop" of another sort !...

All set ? ..... Go ! .....

And here's how ! ..... Brth !

All six "take the air" together - just as though it was drill on --

--the ground ! ..... It's a wonderful thing to be plucky enough to put your trust in a bit of --

--fabric and some string - from choice. ..... If anything went wrong they wouldn't be able to do much about it - even if they had the inclination !

AND SO, FOR THE PRESENT, WE LEAVE YOU !
