

(2).

TITLE.:- FIRE FIGHTERS.

Picture.:- Of course, firemen are used to hustling, so the handpumps race is quite a speedy affair. They dash to the buckets of --

--water, carry them fifteen yards, insert the handpump, and --
--proceed to play skittles with the targets ten feet away.

There is also plenty of water falling from the clouds, --

--but it doesn't prevent them from " carrying on". The Tug-of-war --

--final proves to be a tough struggle between the Midlands and the South.

Stick it lads ! May the best team win !
Another inch ! That's the stuff !

And now ! Heave ! You've done it !
A well deserved win for the Midlands !

Tilting the Bucket is good fun. (Ouch !)for the spectators ! But firemen don't care - except when they get it in the neck !
