

(9). TITLE.:- WONDERS OF THE DEEP.

Picture.:- The new Aquarium took three years to build, and cost --

--six-hundred-thousand pounds. One of its objects is--

--to give an insight into the lives of unusual --

--inhabitants of the sea. It is a regular "Who's Who in the Ocean", --

--with practically only Father Neptune and Davy Jones absent... Some of the fish are very --

--valuable - a hundred pounds wouldn't buy this wonderful gold-fish - that's "more than its weight in gold".

The sea-horses are peculiar-looking things which can look --

--both ways at once ! Horses up a tree ! That's a new one !

Visitors gaze in awe at the big --

--Alligator fish, said to have a skin as tough as a diver's suit. Its progress is always slow and majestic. ...

The greatest curiosity in the whole aquarium has an unpronounceable name, --

--but it is the hippopotamus of the fish world.

See how like it is to its brother of the animal world !.. Ha ! When a hippo opens his mouth --

--it's time for me to leave you
