(5). TITLE:- AERIAL ASPIRATIONS.

Picture:- The tiny planes are something more--  
--than mere toys. XXXX Grown-ups as well--  
--as youngsters join in the sport of miniature flying.

XXXX The little planes are released, and sail away  
carrying the--

--hopes of the owners for a record time in the air. XXXX

Some of them are really remarkable for the time they  
stay up!--

--we've seen full-sized gliders do much worse ! XXXX The--

--only trouble about these little planes is that, no matter  
how carefully they are constructed, they must--

--come to a "sticky finish !"

Here is the "star" machine of the meeting ! XXXXX A  
grand "take-off", and every sign of a good flight ! XXXXX  
But there's trouble ahead ! CRASH ! XXXXX The end of  
that !
