

AFTER THE DELUGE - Britain experiences the
most serious floods for half a century.

-Yorkshire-

Picture.:- Oh ! To be in England now that Summer's here !
With apologies to the poet !

A farmer reflects sadly on the damage done to his
young crops !

This apple tree is feeling the damp badly. Children--
--get to school by a lorry ride ! They like it ! But
many serious flood incidents--

--are reported. The loss caused by this sudden inundation
will amount to many thousands of--

--pounds. Ah ! The only way to get there is by rail !
How ? --

--not why, men leave home ! Well, the wife and family
are all right in the upper storey ! Probably --

--at the window watching to see if the postman falls
in on his way out !
