AERIAL ACTIVITIES - Machines and men of the
air services busy practising for the R.A.F.
Display. -Hendon-

Picture.:- These long tailed comets didn't astonish
astronomers, but they made spectators gasp with
admiration. Members of the Auxiliary Air Force
rehearse for the Air Pageant. The pilots are London
amateurs, but their skill is almost equal--

--to the professional airmen. Making smoke rings by
looping the loop. An airy fancy !

Three Hawker furies play "follow-my-leader" while
looping the loop. These machines of No.1. Fighter
Squadron are thirty miles per hour faster than their
sister planes Hawker-Harts.

27 units take the air for a special show !

EFFECTS.

The machines are forming their initials in the air !

EFFECTS.

Our cameraman is in the plane at the lower part
of the centre letter.

EFFECTS.

A.A.F., the sky sign of the times !

Twenty-seven intrepid flyers come back to
earth ! Isn't it easy ?
