

CHILDREN'S DAY IN LEEDS - The younger generation  
takes part in unique health festival. Yorks-

---

Picture.:- The children are going to show all these dull grown-ups how to be healthy--

--wealthy and wise ! Children's Day has its very own Queen fitted with the latest--

--train, court pages and ladies-in-

--waiting. Leeds' Lady Mayoress crowns the royal lady elect - Miss E. Craven who has been--

--chosen by the school children's popular vote.

Popular is the right word by the look of it !

Children's Day is a movement with a vision !  
A practical method of promoting the welfare of these young souls who must one day--

--accept the responsibilities which the previous generation creates. "Mens sana in corpore sano" is a sane motto for this nerve--

--racking age. Physical training and discipline skilfully combined with the development of a healthy mental outlook will go far to make the youngsters of Leeds and district victors in the battle of life which lies before them.
