BOYS OF THE BULLDOG BREED - Annual inspection of
the lads of the training ship "Warspite". Off Grays-

Picture.:- Hundreds of successful naval men have had the--
--Warspite for a training base at the start of--
--their career. Prince George takes the salute of the--
--present youthful ship's company on the day of the--
--176th annual inspection--
--of the ship. The boys now shiver their timbers by
dancing the--
--hornpipe, and it's prize day too ! - more important
to the lucky ones than a birthday, especially when the
ceremony is presided over by the Prince and the merited
gift handed over by the Lady Gwendoline Colvin. They are
only--
--boys, yet, but a man size navy cheer comes easy !, when--
--their ship is honoured so generously ! Bravo, Warspite !
