

WHILE MOTHER WORKS --- Kiddies of Hoxton enjoy life to
the full at the Day Nursery. -London-

Picture.:- Lots of grown-ups wish to be children again
occasionally ! These kiddies probably don't know--

--how lucky they are, either ! They caper about in this
climbing cage keeping their little bodies firm,--

--and fit while thinking it's playtime ! My early morning
daily dozen are not half so gay--

--as this ! Also, the legend of the child who--

--wouldn't be washed is out of date now ! Nurseries such--

--as this one at Hoxton are making child life the fun
it ought to be !

A sun siesta ! All asleep but one ! He's curious
about the camera !

Harrassed mothers may leave their children here
for treatment,--

--or while they go out to earn the family's--

--bread. It's good training for the trained nurses,
too ! You never know, you know !
