**RAILROAD SMASH AT 70 MILES PER HOUR ! Miraculous
escapes of passengers and train crew at Hamlet, Indiana.**

-U.S.A.-

Picture.:- America usually does things on a big scale !
This thirteen waggon train was speeding from Pittsburgh
to Chicago at seventy miles an hour. Without warning,
a wheel flange flew off a--

--wheel, and the train flew off the rails. The coaches
were piled--

--one on another, and smashed ! The passengers all had
luck ! Not one--

--was killed. Considering the speed when the smash
came their escape--

--was a miracle ! The engine travelled three hundred
yards--

--after leaving the track, the tender left its wheels
far--

--behind, and Providence put in a busy day !
