THE FLYING FAMILY - - . Mr. & Mrs. Hutchinson, with little Janet and Kathryn, safe on British soil after terrible experience in Greenland.

-Scotland-

---

Picture:- The adventures of Mr. and Mrs. Hutchinson, of "Flying Family" fame have achieved--

--a wide world publicity. After enduring the hardships of being forced down off the icy cold world of Greenland, warmth and safety is again--

--assured them. Although it is still chilly enough to require the children being well wrapped up !

*Landings* These pictures were taken in Novar soon after the rescue at Erriboll. Little Janet aged 6 years treasures an--

--Eskimo doll which was presented to her. They're just off to Aberdeen--

--by air, and quite happy about it. Their terrible--

--perils have'nt affected them with nerves--

--or anything of that kind. The way those young kiddies have stood the ordeal--

--is magnificent. They certainly have displayed unconscious heroism.

And this is ~~the~~ Captain Watson of the Lord Talbot--

--together with his hardy lifesaving crew. If it hadn't been for their determined efforts - - well, don't let's think of that horror !
