TUMBLING AUTOS - - Motor-car manufacturers adopt
rigorous means of testing new types of coachwork.

-Indiana.U.S.A.-

Picture:- If you don't feel safe in your car, or worry
about smashes, just watch what an American Body Manufacturer
does to try the strength of his product. You may test yours
in the same way. All I suggest is that you get out first.

NOISE FOR REST OF SHOT.

There it is ! Rather bent maybe, but otherwise in
one piece. So if you do--

--take the wrong turning on a mountain-side path,
you needn't bother about the car. Just have some
stretcher bearers handy !
