PRINCE AT OXFORD - - His Royal Highness, the
Prince of Wales receives a cordial welcome when he
visits his old university.

-Oxfordshire-

Picture.:- The Prince of Wales arrives at Oxford to--
--open the new extension of the Taylorian Institute. He--
--first visits Worcester College to lunch with the Vice-
Chancellor, The Reverend F.L.Lys, and from that function--
--proceeds to the new Institute buildings, dressed--
--in his robes of Doctor of Civil Law. The Institute is
the centre of scholastic Europe for the study of--
--modern languages. Men and women graduates are--
--present in force, supported by the townspeople when
the Prince opens the Door with the formal--
--golden key and enters. His next call is at--
--Magdalene - - or rather, Maudlin, as Oxford has it,--
--His Royal Highness'es old College. Here he opens--
--a new library. He also renews the scenes--
--of his youth. An undergraduate here, his studies
were broken by the strident--
--note of the tocsin of world war.
