JACK'S ASHORE - - "Liberty men' of the
First Watch of the Home Fleet come ashore for
Christmas Leave.

-Hampshire-

Picture:- With the approval of the Admiralty, we present--

--the first pictures of the First Watch of--

--the Home Fleet coming ashore prior to taking their Christmas
Leave. The ship--

--in the background is 'Hood'. Before the dismiss, the
'liberty men' fall--

--in for inspection. This Watch will return to--

--ship for duty over the actual--

--Christmas Holiday, while the Second Watch takes its leave.
The Navy never sleeps, and it--

--can't quite shut up shop for holidays.

A Petty Officer offers a few kind words on what--

--a sailor ought to know about shore leave. Jack knows
a lot about that already, or I miss my guess, but if he--

--doesn't, his girl friend will probably teach him the
rest.
