

RISING YOUNG MEN - - Italian naval cadets
display amazing skill in ship drill during winter
training cruise.

-Palermo-

Picture:- Italy has a long coastline, and--
--Mussolini has a plan ! Italian boys, thinking about a--
--naval career are first trained as sailor--
--men, and later as seamen ! A distinction, with a difference !
Every--
--boy is taught to handle sails, spars, ropes and winches in
the good old--
--fashioned way. Whether or not, they are corrected--
--by a crack from a--
--marling spike in the same--
--good old fashioned way, I don't know ! Il--
--Duce believes that the future lies--
--with the world's youth, and misses no opportunity of
training the young for all sorts of--
--patriotic services, making everyone learn a job definitely
useful for--
--helping Italy in peace or war. This cruise of youthful
sailors includes a visit--
--to Gibraltar, French Morocco, The Canaries. So the
boys learn a lot on their working holiday.
