

BRAVING A BLIZZARD - Universal

cameraman accompanies cowboy in search  
for cattle lost in terrific snow-storm.  
- Wyoming, U.S.A. -

---

Picture:- In his search for news, our cameraman found himself  
on this ranch when the storm --

-- broke ! It was discovered that a calf had strayed. "Its  
got --

-- to be saved" says the cow puncher and reaches for his --

-- horse. The blizzard gets so bad that the broncho can't  
see through it and has to be led. There's a chance of the  
lot getting completely lost.

The calf is found anyway, nearly frozen and wondering  
what its all about. Well, if they hadn't got back, this  
picture wouldn't be on the screen, so we'll take the --

-- descriptive rest for granted, but such --

-- a blizzard spells disaster to cattle raisers. Thousands of --

-- beasts die out in the snow before they can --

-- be rounded up and protected, but hungry diners --

-- will eat the rescued calves surloins stakes without a thought !
