TOPSY TURVY FLYING - - Daring Italian beats
world record with amazing upside-down flight of
45 minutes !

-Rome-

Picture.:-

In view of what he is going to attempt, a
parachute handy seems a sensible bit--

--of foresight. Captain Colacicchi, of Italy,
is having a shot--

--at breaking the record for upside-down flight.
He has to beat a twenty-two minutes topsy-turvy
flip by the French aviator Michel de Troyent.
He is just--

--preparing to turn over for the attempt.

(EFFECTS).

Forty-five minutes flying along the
floor of the sky ! Amazing ! And now, what
next ?
