

FOR THE KIDDIES' SAKE - - Her Grace the
Duchess of Portland opens an additional ward of the Harlow
Wood Orthopaedic Hospital.

-Near Mansfield-

Picture.:-

The door of the new wing of the Harlow Wood--
--Hospital, Nottinghamshire, is opened by Mr. Sam Browne,--
--representing his fellow miners. While inside the new--
--Ward, the Duchess of Portland gives a presidential --
--address. The miners of the district have subscribed
so liberally--
--to this haven of health for sick children--
--that the honour of opening it was granted them.

And here are the kiddies of the new ward taking
a sun bath.

May they all soon be as contented as this
one looks !
