BOUGH RIDING IN YORKSHIRE-

Competitors in York Motor Glub's Colonial Trials experience 'hard times' on mountainous course.

-Near Thirsk-

Pioture.

There's a hard time soming for them all - - and well-

-- they know it. ... There are 50-miles of treacherous

--between them and the end of the journey. ... This hill is called Grydsdest --

-- Roys, and it's as good as--

-its name! ... The 'going' is not so bad up to -- (hm !, 'seuse my smoke !) -- it's not so bad up to now, but-

-- they get a shaking up at this point. ... A few more bumps like these, and--

-- it will be a case of standing for meals for a week or two ! ... The top with--

-- its flat run is welcome, --

-- but it only indicates worse to come. ... Most riders get into difficulties --

--at Mull Dale Splash - - which is no lenger a splash, the water having dried up long ago, leaving--

Despond. .. Others call it (VERY LOUD MOTOR-GYCLE REFECT ON NEXT SHOT).

Thank you! ... Wext time it might be better if he lest his bike at home and hiked it! ... He would only suffer from sore feet then! ... And when they get stuck, well it's--

-- a good thing we're net showing you <u>coloured</u> pictures !...

Come on, young fellow! I can't wait all day! ... I must

pass on to the next story!
