THE CUBAN RIOTS.

Picture.:-

For weeks now, the Hotel Nacional in Havana--  
--has been surrounded by machine--  
--gun and rifle units of the people's army. A suit--  
--of armour is the only safe outdoor costume.

Universal's cameraman shoots with the machine guns,  
risking--

--his life to get these pictures. Riot, and bloodshed  
stalk--

--the seething streets. Emergency hospitals are--

--working overtime. Gibson, our cameraman, was shot  
a few minutes after--

--setting up his camera. Four bullets--

--and fifteen small shot were his share of a volley.

The order of the day is wild disorder. There is--

--a daily death roll of unfortunate--

--victims, and the political pot is still boiling furiously !
