NEWS IN BRIEF.

(5). Picture:- This wreckage at Leith is the result of a playful little joke of the recent East Coast gales. It was--

--a garage when the proprietor looked up at night. In the morning there was just a mess. When car owners came to collect their cars, the joke fell as flat--

--as their punctured tyres, and nobody laughed. What a blow.

(5). Picture. While we freeze, Florida gets a--

--sunny view of new beach garments filled by attractive show girls. Down on the farm--

--means nothing to these--

--overalls. Many new effects are seen. Here's a--

--sort of Alpine outfit, but there's nothing glacial--

--about it. Swimming suits have shrunk--

--more than ever. "Mother, may I--

--go out to swim. Yes, daughter.--

--Tie your suit round--

--your neck, but don't go into the water". And they're all taking mother's advice. About that, anyway.
