

NEWS IN BRIEF.

(1). Picture:- Lovely daffs, lady ! Acres of them. While it's--  
--winter in the hills, it's daffodil time down here.

For America's Daffodil Day, hundreds of thousands of--  
--yellow blooms are gathered by blooming girls.

This golden harvest is fully a--  
--month earlier than usual this year, and that's said to be  
a--  
--sure indication of an early summer. Pretty--  
--as a painting, isn't she - - er - it !

(2). Picture:- Mr. Illion of Preston is an--  
--adventurous soul. He plans to visit weird--  
--countries where the feet of the white man haven't tread,  
and--  
--where his hands have never paddled. Barring hitches  
he starts in two months time for the--
