

(CONT).

(5). Meanwhile the Race Track at Brooklands was receiving first aid.

Where pot holes have appeared, new portions of track--
--are to be laid down. At one-hundred--
--miles per hour, a bad surface is a danger to--
--racing drivers. And first aid to the track is--
--better than first-aid to the catapulted motorist. You--
--know the old rhyme of "Holly, mistletoe", well here's-
Holly

--the holly part of it. The traditional ever-green is very plentiful--

--this year, and just as prickly--

--as ever it was. At Nine Elms Goods Station--

--hundreds of bundles are being unloaded for decorating the presentation coloured--

--plates of W.E.Gladstone and the Soldier's Farewell. But--

(7). --no more holly will grow in these woods. For this spot is the site for the--

--King's house. Surveyers are putting up--

--their poles, and wood-cutters are felling the trees to prepare the ground for foundations. The house is to be--

--a jubilee gift to the King from the Royal Warfent Holders' Association. The site is situated amid beautiful Surrey scenery.
