DARING DRIVING.

DEMONSTRATION AT WHITE CITY.

---

Picture.:- This car appears to be driven by a backward driver, but the skid shows that he's

really ahead of most. A demonstration of skidding to get out of a

nasty jam, and probably into a nastier one. Steeple-chasing by

car is another thrilling sport for those who

like it. Always borrow a friend's

car to practise these tricks with. The display shows just how much

the modern car will stand,

and how easy it is to run over an

obstacle, (pedestrian, or pram with baby), without the

car sustaining the slightest damage. It can

even run through a burning

house, if you feel

like it. But to avoid

trouble, don't imitate Captain Miller and James Campbell, the clever stunt drivers.
