

A DISCUSSION ON DRESS.

Picture:- For those who can't afford to follow the birds
and go south in

winter-time - - a nice selection of new upholstery coverings,
guaranteed to please ! Oh look what was under that coat !

And the latest beach wear for Florida, made in
a single check pattern, and paid for with a double-figure cheque!

A shawl for erring

daughter's return. Oh ! Sorry I'm wrong ! She's unveiling
the guns to be trained on papa's

pocket book. Well - - of course - - now I have lost my place !
This is all very confusing, so

let's go further South. Take the

members of the Polar Bear Club, for instance ! Take

that one away for a moment,

and let's see the juvenile polar cubs sporting - -

- - er - - just a minute, Mister ! - -

sporting in the freezing briny. Comein sweetheart.
Well, they couldn't be hot-heated, even

if they tried, especially with general nuisance

watching for points. They say it's good

for the health, but fancy making

an ice cube of yourself to prove it !
