

LINCOLNSHIRE HANDICAP

"FLAT" SEASON'S FIRST BIG EVENT.

---

When the gentleman rehearsing for the high dive has finished we'll get on with the race.

Of course, if the Lincolnshire Handicap is as painful a subject with you as

it is with me, you'll just hate hearing about it again. Well, for heaven's sake, who would

have thought of putting his shirt on Overcoat. I mean, it's all wrong. Never mind, smile, darn you smile, and look at these lovely creatures. IS is Screamer who was brought down when Bow and Arrow

fell. Of that, more later. The 35

runners come under starter's orders,

said starter being Capt. H. Allison. Capt. Allison mounts the steps to the tape and

all is set for our financial tragedy. Some

of the mounts are fractious; don't like it too much apparently,

but they are ready now and away. EFFECTS.

EFFECTS (count 10) Then came the accident to Bow and Arrow

which brought down Screamer and Tom Bowling, injured Bobbie Jones and Dines, and generally upset the race.

as you know too well, Overcoat was first, Boethius second, and Mistral third, and that was really

that. Of course, punters will be glad to know they made the bookies very happy. The winner is really a very nice horse.

I mean, you can't blame him. He didn't know it was our only shirt.
