

As the Queen Mother was leaving New York in the liner Queen Mary at the end of her visit to the United States and Canada, she gave a farewell message to the gentlemen of the Press.

As a memento, Her Majesty was presented with a picture of the Statue of Liberty and the Manhattan skyline --- by Mr Richard Patterson, representing the Mayor of New York. And as the Queen Mother, *said her good-byes* ~~bade her farewells~~ on leaving the new world to return home --- that famous waterfront became a forest of waving hands --- wishing "God Speed" to a great lady from Britain.
