

British Miners in Russia

Making a tour of coal mines in the Soviet Union - a delegation of British miners ~~were~~ visited a heavy engineering factory - that specialises in the production of mechanical equipment. (2)

Later, in the rich Donbas mining area - the delegation (representing the National Miners' Union) went down to the pit face to meet their Soviet counterparts in a vital industry.

Miss America

Atlantic City becomes the beauty spot of a Nation, as five-star lovelies from all parts of the United States compete for the title role of the year "Miss America".

Nightfall brings a parade of decorated floats. Strange as it may seem - a "Miss America" has never won Hollywood fame. Evidently it ~~needs~~ ^{does}

need more than a pretty face to become a twinkling star.

U.S. Rail Disaster

A major railway collision in New Mexico, when the Santa Fe Chief, a crack American express, crashed into a mail train that was waiting in a siding for it to pass.

Through a faulty diversion - the oncoming express roared along the wrong track to disaster. Twenty railway employees were killed - though miraculously, all the passengers escaped with their lives.

Troop Ferry

Germany: A new look in amphibious craft is demonstrated on the Rhine by the French Army Engineer-Corps ~~with~~ ^{A MECHANISED} a ferry boat able to carry two-hundred fully-equipped men.

Perfecting by an Army Engineer, ~~the~~, the amazing craft can ferry loads of up to twenty tons - (including tanks) - across raging rivers in a matter of seconds.

~~In~~ In an emergency, these ferry-boats can literally bridge a river. Placed end-to-end, the boats form a highway for all kinds of traffic. In a recent test, one hundred and forty workers bridged the Rhine - using thirty-four boats - in only two hours.
