Old Plane-

*Way back in*  
~~as long ago as~~

1906, a Danish mechanic J. Ellehammer, completed his first aircraft, and successfully tested it on the small island of Lindholm.

50 years later, the same plane, ~~which had been~~ completely renovated, was flown by Mr Jansen of Copenhagen- as a ~~fitting~~ tribute to Denmark's gallant pioneer of flying.

Model Planes-

Planes were also in the news at Radlett airfield, Hertfordshire; where ~~radio~~ <sup>Radio</sup>-controlled craft gave a good account of themselves at the All-British ~~Model~~ <sup>MODEL</sup> Aircraft Rally.

There ~~was every sharp and size of plane you could think~~  
~~of~~ taking the air; ~~and the result~~ all the result of long hours of hard work and superb craftsmanship. But sometimes <sup>even</sup> they come down to earth with a bump ~~and~~

Motor Cycle Races-

The ~~craze~~ craze for motor cycle racing has extended to ~~Soviet Union~~ the Soviet Union, where competitions were held near Kiev- capital of the ~~Ukrainian~~ Ukrainian Republic.

~~Some~~ Competitors, including women, found the going pretty tough, over the broken country.

Some ~~managed~~ <sup>managed</sup> on to final victory- while others- Oh' well- there are various ways of finishing the darned thing!

Coliseum-

In Rome, ~~constant~~ vibrations ~~can~~ caused by passing ~~traffic~~ traffic, have threatened the collapse of the world's most famous amphitheatre- the Coliseum.

For over two years, craftsmen working at the giddy height of 170 feet above ground, have been repairing some of the worst cracks ~~in~~ in this ancient Roman landmark.

Harvest Moon Ball-

The annual Harvest Moon Ball in New York gets off to a slow start- with the dances of Grandmama's day.

But the 1956 tempo hots up to Rock n'Roll, when New Yorkers let their heads rule their hearts- ~~but~~ <sup>though</sup> in Britain, the heart seems to rule the head.
